

## RNAV Revealed

For over a dozen years, pilots have used Area Navigation (RNAV) to fly direct, navigate more accurately, save time, reduce fuel expense and operate more confidently. But the technology that changed how you fly continues to evolve. Are you keeping up? In RNAV Revealed, we'll provide a refresher on some critical RNAV basics, reveal a few tips and tricks to help you get more from today's technology, and offer you actionable insights for your next flight—and every flight after that.

**Directions:** Look for the big yellow tent near the intersection of Waukau Ave. and Wittman Road (right across from the EAA brown arch as you enter AirVenture).

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
